Meow

Description

Vivi is a cute kitten playing a game of MeowMeow with his feline friends. The cat that meows first says Meow, the cat that meows the second should be Meoww, the cat that meows the third should be Meowww, and so on.

Vivi only knows that she is ranked n , but she doesn't know what to say, can you help her?

Input

Input only one line.

First line has an integer n ($1 \leq n \leq 10^6$)

Output

Print what Vivi need to say.

Sample Input

```
3
```

Sample Output

```
Meowww
```

Any Questions?
